REMARKS

The Examiner rejected claims 1-18 under 35 U.S.C. 103(a). Claim 1 has been amended to correct an obvious typographical error, and claims 2 and 12 have been amended to be more grammatically correct. Additionally, claims 1 and 11 have been amended to overcome the Examiner's rejection.

Applicant asserts that claims 1 and 11, in the above-identified application recite "...the driver printed circuit board is spaced apart from the back side of the receiving container to form a receiving space." The driver PCB is spaced apart from the receiving container, so that the receiving space is formed by the driver PCB and the back side of the receiving container. However, Won (U.S. Pat. No. 6,046,785) does not disclose any gap to form a receiving space between a mold frame structure and a PCB. Therefore, it is believed that Won does not disclose a receiving space as recited in claims 1 and 11.

Please telephone the undersigned attorney at (408) 392-9250 if there are any questions.

CERTIFICATION OF FACSIMILE TRANSMISSION

I hereby certify that this correspondence is being transmitted via facsimile to the United States patent and Trademark Office, Fax, No. 571-273-8300 on October 19, 2006.
